Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant argued that the 112 rejection of claims 121-133 was incorrect and after further consideration the examiner agreed. However, the examiner noted that these were properly article claims limited only by the structure claimed therein and would be restricted out as the originally presented method claims had been examined. Discussed that because the method claims were in condition for allowance the non-elected article claims 121-133 would be cancelled and the case would be allowed.

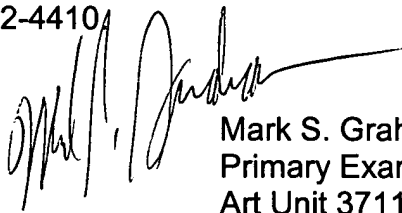

Art Unit: 3711

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 121-133 directed to article claims non-elected without traverse. Accordingly, claims 121-133 have been cancelled.
